The Battle of

VAN NEST'S MILL

On a frozen morning in January 1777, the "Forage War" came to the banks of the Millstone River. Join us as we recount the daring Battle of Van Nest's Mill (the Battle of Millstone). Discover how General Philemon Dickinson led 450 local militia through waist-deep, ice-choked waters to surprise a superior British foraging party. Learn how this "local interest" skirmish caught the eye of George Washington himself and proved the New Jersey militia was a force to be reckoned with.
